BIRES 2017

COST Action TU1205 and the organizing committee of BIRES 2017 invites you to submit papers to this first conference on **BUILDING INTEGRATED RENEWABLE ENERGY SYSTEMS**. For the first time, Building Integrated-Renewable Energy Systems will bring leading universities and industry together. The event provides an unparalleled networking opportunity, as well as the best way to learn about innovations and best practices for installation, performance, management and financial returns of these systems. The submitted papers will undergo peer reviewing by experts in the field. Accepted papers will be given the opportunity to be presented at the conference, included in the conference proceedings, and if selected, to be published in a Special Issues of the International journal, **Renewable Energy**. Along with the academic benefits, an industrial, poster session, social and cultural program will accompany the event that will ensure an enjoyable stay for all participants.

Location

Grangegorman is the new campus of the Dublin Institute of Technology, one of the great success stories in developing Ireland's growth over the last few years. Developments in technology, research, education and enterprise have formed the key cornerstones of this growth. Combined with its historical, social and cultural diversity, and surrounded by outstanding scenery, Dublin continues to be a vibrant and exciting city and joy to its citizens and visitors.

The Conference will be hosted in the Dublin Institute of Technology, Grangegorman campus, Dublin. The campus is close to numerous amenities and public transport. Just a short walk from O'Connell Street, the main street in Dublin, the visitor will find numerous historical buildings and monuments, city parks, and a range of shops and theatres, cinemas and art galleries. The lively Temple Bar area, Phoenix Park, Natural Museum and Smithfield is close by, hosting a wide variety of interest to visitors.
